THE ENERGIEA

(A society under the Dept. of Energy Engineering)

Central University of Jharkhand
Brambe, Ranchi, Jharkhand - 835205

5th April'2019

Department of Energy Engineering

The Department of Energy Engineering came into existence in July 2011 under the school of engineering and technology. The centre is committed to the mission and goals of the university for not only teaching and research but also overall development of the region and the country by emphasizing on the need of renewable energy technologies and their application for the common basis. The Department is currently offering 5 years Integrated M.Tech, 2 years M.Tech & Ph.D. in Energy Engineering. Here we are creating a friendly environment which promotes innovative growth of ideas, intensive interactions and co-operations at all levels.

About The Energiea

The Energy Society formed by the students and faculties of DEE which firmly believes in igniting young minds curiosity and understanding. It has been involved in various academic and technical events in the past. It promotes interdisciplinary cooperation and grass root innovation by supporting learners enthusiasm. It is also dedicated towards organizing awareness program for conservation of energy and promote sustainability.

The Energiea society has been organizing consecutively conferences and annual events since its inception like ARUNIKA, AKSHARAA, GREEN ENERGY CONGREGATION, AKSHAY URJADIWAS.

Students/Professionals Association

To get associated with "The Energiea" society or to participate in "AUJASYA 2019", please visit our website www.theenergiea.in and follow the instructions.

AUJASYA 2019

This event is planned to execute the aim with which the society was formed. Providing a platform for students to acclimatize themselves to the world of renewable energy for social benefits. Activities to promote science, interdisciplinary cooperation and technological innovations by supporting learners' enthusiasm and creating awareness about alternate source of energy and further correlating it with other field of science and engineering. It is also dedicated towards organizing awareness program for conservation of energy and promote sustainability amidst the present national and global energy scenario.

Sub Thematic Session

Invited Talks on: -

- 1 - Enhancing Energy Efficiency
- 2 - Sustainable Landscape
- 3 - Navigating the Future
- 4 - Energy Access
- 5 - Power-to-X

Event Included: -

- 1 - Cultural
- 2 - Tech Quiz
- 3 - Informals
- 4 - Workshops
- 5 - Business Plan
- 6 - Poster Making
- 7 - Model Exhibition
- 8 - Best out of Waste
- 9 - Exchange of Views
- 10 - Paper Presentation

Why Support us ??

- 1 - For promotion and awareness of Renewable energy in the country and region. And increase awareness about the products and features of your company.
- 2 - For knowledge of latest trends in Energy generation and technology.
- 3 - Interact with influencers and decision makers from around the world to build new relationships while maintaining existing ones.
- 4 - For making a recognition in the industry and power sector and tie-ups for requirement.
- 5 - It provided single platform to attract large scale exhibition for Solar, Wind and Bio-mass generation in India.

"If you make lots of money you must give it back to society as you have received so much love from it."

- JRD TATA

The main focus of the event will be to have a conglomeration of Experts (Academics, Companies, Manufacturing & Govt. Regulating Authorities) in different ambit of energy sector which is some way or other is surely going to impact our future ahead.

Having your organization's name on the event's banner and website is undoubtedly going to matter a lot in terms of building your reputation & healthy relations and a service towards the society.
