An Educational Social Responsibility of CUJ  
organises

4-day programme on  
**Valuing water –  
Rainwater Harvesting  
and Management**

**22nd to 25th March 2021**

### **About the University**

The Central University of Jharkhand was established through the Central University Act, 2009. The University started with a vision to specially focus on relevant present age educational drives with an emphasis on research in cutting edge technologies. It offers Undergraduate, Postgraduate and Ph.D. programmes in its Schools and Departments. The University is open to new ideas in course curricula and research proposals, collaboration, interaction and capacity building programmes. The CUJ Faculty have been awarded National and International Fellowships, project funding and recognition and are constantly contributing to the Government Sector, Public and Private Sector organizations through teaching and consulting. The students have also won accolades in national level academics and extracurricular activities.

### **UNNAYAN**

Unnayan is an educational and social responsibility wing of the Central University of Jharkhand. It had its humble beginning in 2010 with few children of CUJ local workers. These initial efforts blossomed into the educational social responsibility program of the Central University of Jharkhand in 2012, with Dr. Hrishikesh Mahato as the coordinator. In the past few years, students, staff and faculty members have volunteered to impart free knowledge to young underprivileged students from the nearby villages. These endeavors have led to exceptionally academic performance of almost all the students at the Matriculation and Intermediate Examination. Several extracurricular activities like dancing, singing, painting, sketching, physical fitness programs, children's film shows, etc. have also been organized through Unnayan.

## About the Programme

The four-day programme “Valuing water – Rainwater Harvesting and Management” from 22nd March to 25th March 2021 is being organized with the objective of highlighting the current water scenario which necessitates the understanding of Rainwater Harvesting and its applications. The programme has been designed in a blended mode which would consist of online session on selected topics by eminent speakers comprising of representatives from academia, NGOs and Government, and an offline technical session comprising of a field visit to the irrigation reservoir constructed through the efforts of Padma Shri Simon Oraon.
