

Introduction

Objectives

- Central University of Jharkhand seeks to build and sustain a rich research environment by striving to:
- Position of University as a world class Research University with a teaching soul.
- Make Central University an ideal place for motivated and leading researchers across the globe. Central University of Jharkhand seeks to recruit and retain researchers of high repute, distinction with potential and thus enhancing its global competitiveness.
- Provide a foundation for incorporating an inquisitive spirit, creative thought and transformative approach across all domains of engineering, sciences, social sciences and the humanities, promoting an inter disciplinary approach, and convergence of theoretical and applied research.

Research and Development Cell, Central University of Jharkhand, Ranchi

- Foster resource mobilization and capacity building (physical, human and financial) to facilitate the production of high quality research of international standards.
- Enable execution of the vision of national level research policy statements.
- Trigger the development of a 'scientific temper' in the larger community through outreach activities.
- Ensure the adoption and adaptation of pedagogies and elements in the curricula that nurture research at all levels of education.
- Observe the highest standards of ethics in research input, process and output.
- Encourage cluster research projects and tap opportunities to create high value global infrastructure in selecting fields through national and international consortia models.
- Foster academia-research-industry partnership by encouraging cross mobility of experts and establishment of large R & D facilities in PPP mode with provision for benefit sharing.
- Create platform for dissemination of findings of research studies carried out on the Campus and linking it to the needs of the society and industry.
- Document and disseminate best practices for research promotion.

SCOPE

These regulations shall be called “R&P Regulation” hereafter & shall be applicable to all activities stated therein. These rules will supersede all existing R&P rules.

Central University of Jharkhand’s (CUJ) research policy statement intends to form a reference point and to guide institutional and individual research activities to integrate with the University’s vision “

to attain and retain a coveted position as a premier educational institution engaged in creation and dissemination of knowledge, new ideas, perceptions and methodologies;

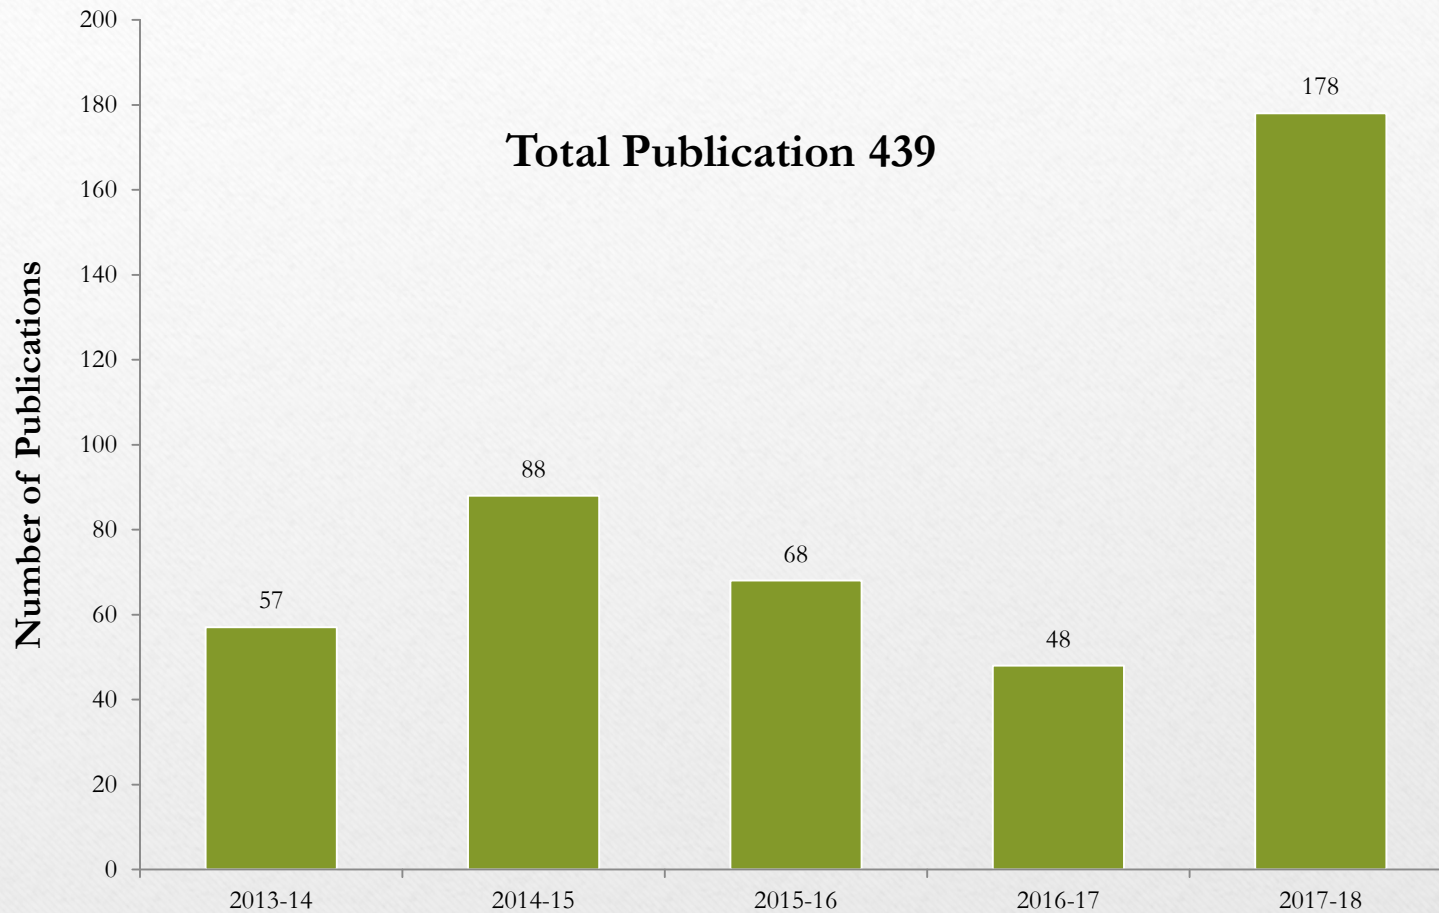

to arrange for quality teaching, research, outreach activities and for developing intellectual capital to meet societal needs and global challenges.”.
