Session II 02:00 PM to 05:00 PM	Domestic Violence against women -- it's a men's issue	<p>Indian society is inherently patriarchal and domestic violence has become normalized is stated to be quite prevalent.</p> <p>The public concern about violence outside the home, which results in advice to women about how they should dress and stay off public spaces, obfuscates the enormity of intimate terrorism.</p> <p>Accounts of survivors reveal how other women in the family either watch helplessly or condone/ minimize/ ignore the abuse. This abuse, because of its location (inside the home) and its perpetrator (a close relative), is widely underreported.</p>	<p>https://ncw.webex.com/ncw/onstage/g.php?MTID=ed93244008a93143db17bb6207a478393</p> <p>https://tinyurl.com/NCWIAAWD ay1</p>
