- vii) Dr Sachin Kumar Member
- viii) Prof S K Samdarshi Head, CEE

A brief summary of the discussions held and the recommendations made is given below

- a) The committee discussed the course structure as well as each of the individual courses in detail and suggested various changes during the discussion.
- b) It was decided to make the suggested changes in the entire syllabus and circulate the revised copy to all the members for their comments before finalization.
- c) Some specific suggestions are
  - i) The total credits should be minimized to upto 65 credits. Accordingly the credits for final year projects needs to be reduced to 12 each semester
  - ii) Summer internship should be included , preferably in Energy Industries and a part of the project credits may be kept for that.
  - iii) Final year project evaluation should be done in the last week of June.
  - iv) Some more names of professors(examiners) should be included for final year project evaluation.
  - v) The issue of overlapping of course content should be resolved.
  - vi) Maximum duration of the course must be 6 semesters.
  - vii) A self-study component should be included in each course content in future.
